## **EARLY COLLEGE ACADEMY**

Last week, over **60 area high school juniors and their parents** attended an information session on HACC's Early College Academy (ECA) program. The ECA program gives college-ready high school seniors the **opportunity to take two courses (six credits) during the fall and spring semesters at HACC** and receive both college and high school credit plus gain important college readiness skills.

National data (Jobs for the Future [www.jff.org](http://www.jff.org)) indicates that Early College programs increase student success rates.

- **93 PERCENT** of early college students graduate high school vs. the national rate of 75 percent.
- **76 PERCENT** of high school graduates who participated in an Early College program enroll in college vs. the national rate of 68 percent.

## EMERGENCY CALL BOXES

Emergency call boxes have been **strategically placed in various locations on campus**. When you press the button you will be connected directly to an officer on duty. There are plans to install several call boxes next year in the parking lot as well. As you explore the campus, make **a point of noting where the call boxes are located**.

### **Call boxes can be used for assistance, or to report an incident:**

- Crimes, Suspicious persons, Lost, found or stolen property, Medical problems
- Fire, Asking for directions, Requesting a personal escort

### **When activating a call box:**

- Press and hold the button to talk, release to listen
- Speak clearly and state your name, your location & your emergency
- Follow the officer's instructions
- Do not leave the area unless your physical safety is in danger
- If you feel unsafe or threatened, activate the call box and keep moving to a safe location
- All Call Box activations are investigated regardless of a response

If you ever find any problems regarding the condition and/or use of the emergency call boxes contact the public safety department as well. Feel free to stop by the campus public safety department to learn more about the locations and use of the call boxes.
